

Picho-RPG — Player Quick Reference

A pocket sheet for new players sitting down at the Algol table.

1. The dice

Picho-RPG runs on a simplified GURPS variant. Roll 3d6 under your skill or attribute. Margin of success matters: each point under your target adds 1 to damage or effect.

2. Combat order

Initiative = Basic Speed. Tied? Higher Dexterity goes first. On your turn you can move OR attack OR cast OR ready, then take a free maneuver.

3. Magic schools

- Esper: innate, costs FP per spell.
- Tek: gear-based, costs mesetas per shot.
- Faith: free but slow; takes a full turn to cast.

4. Travel between worlds

You need a Roadpass to ride between Palma, Motavia and Dezolis. The campaign opens with the Roadpass missing — recovering it is your first arc.

5. Key NPCs

- Alis Landale — your protagonist; vows revenge on Lassic.
- Lutz — Esper sage; joins after the Mansion arc.
- Odin — frozen warrior; thaws in Medusa's Tower.
- Hapsby — engineer-priest of Paseo; trades favours for parts.
